

# Hand Arm Vibration Risk Assessment and Management Training

TWO-DAY COURSE  
IOSH CERTIFICATION

National Irish Safety Organisation

€800 NISO MEMBERS  
€1,000 NON MEMBERS

**Hand Arm Vibration Syndrome (HAVS) is often underestimated and misunderstood. This course will enable health and safety professionals manage HAVS more effectively.**

Hand Arm Vibration Risk Assessment and Management Training is being held by National Irish Safety Organisation in conjunction with Industrial Noise & Vibration Centre Ltd., UK.

## OBJECTIVE

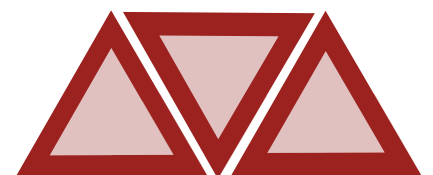

Participants will gain the knowledge and confidence to identify their organisation's obligations, assess vibration at work risks and take appropriate steps if required. Participants learn to professionally present and manage a vibration control plan.

## DETAILS

**Venue:**  
NISO Training Centre,  
Ballymount, Dublin 12

**Dates:**  
18-19 October 2017

**Further information:** Visit [niso.ie](http://niso.ie) for more details, contact [info@niso.ie](mailto:info@niso.ie) or call 01 465 9760.

# Hand Arm Vibration Risk Assessment and Management Training

IOSH Certification

NISO is delivering Hand Arm Vibration Risk Assessment and Management Training in conjunction with the Industrial Noise & Vibration Centre Ltd. (INVC), UK.

As accomplished, well known consulting engineers in the field of noise and vibration, INVC assisted the UK's Health and Safety Executive (HSE) in launching workplace noise and vibration control regulations in 2005.

INVC developed the Hand Arm Vibration Risk Assessment Management training course in conjunction with IOSH. Consequently, INVC is the approved training provider for this topic.

## COURSE PROGRAMME

### DAY ONE

- Symptoms of Hand Arm Vibration Syndrome (HAVS)
- Scale of the HAVS problem
- HAVS Management Programme
- Vibration Parameters
- Measuring Hand-Arm Vibration
- Practical Demonstrations
- Introduction to Calculating Risk
- Homework

### DAY TWO

- Homework Review
- "Best Management Practice"
- Vibration Calculation Procedures
- Practical Session
- Reporting
- Written Examination  
(1.5 hrs, open book)

## ADDITIONAL INFORMATION

### Who should attend?:

Health and safety officers, health and safety managers and anyone wishing to understand/implement vibration measurement and control.

### Assessment:

1.5 hr open book written exam

### Accreditation:

IOSH Certificate

CPD Points
